

Experiment1

Mean (μ): 75.0862 ± 0.3572
 Sigma (σ): 4.1725 ± 0.3828
 Chi-square: 84.672 , dof: 92 , p-value: 0.6935

Conclusion: Good fit. Reduced $\chi^2 \approx 0.92$ and $p \approx 0.69$ indicate consistency; residuals show no visible structure.
